ABOUT NATIONAL TRAINING WEEK (NTW) 2025

National Training Week (NTW) aims to provide all Malaysians, regardless of background, with free access to quality learning and development.

Focused on lifelong learning and skills enhancement, it equips individuals to thrive in an evolving economy.

In collaboration with KESUMA, HRD Corp acts as a bridge, connecting the workforce with industry leaders, educators, and resources. By fostering accessible learning opportunities, NTW promotes a shared vision of developing a more skilled, competitive, and future-ready Malaysian workforce.

NTW BRIDGES LEARNING ACROSS ASEAN

This year, we're taking National Training Week (NTW) to a whole new level by expanding it across ASEAN, bringing together nations in a pioneering collaboration for learning and skills development.

NTW coincides with the ASEAN Year of Skills (AYOS) 2025, becoming one of its flagship initiatives. This exciting development means that NTW will extend its reach regionally, fostering an unparalleled partnership for the growth of skills and knowledge across ASEAN.

Themed, Learning Beyond Borders, is in line with the spirit of AYOS 2025, as it promotes regional collaboration, inclusivity, and innovation.

The goal is to unite ASEAN countries in an extraordinary effort to share expertise and drive skills development on an unprecedented scale. NTW 2025 will be a movement dedicated to empowering citizens and shaping the region's future workforce.

KEY INSIGHTS ON ASEAN'S LEARNING AND DEVELOPMENT LANDSCAPE

54% ASEAN Employees

Growing Demand for Upskilling and Reskilling

By 2025, 54% of ASEAN employees will need to upskill and reskill to meet the industry's demand in the fast-changing era ⁽¹⁾. High-demand training programmes in digital skills, green technology, and advanced manufacturing are offered via NTW to bridge the skills gap.

(1) World Economic Forum

60% ASEAN Workers

Focus on Lifelong Learning

60% of ASEAN workers believe they need to continuously learn new skills to remain employable ⁽²⁾. NTW promotes lifelong learning by offering thousands of free training programmes annually, targeting both employed and unemployed individuals.

(2) Udemy Workplace Learning Report

\$1 trillion Digital Economy Hub

Promoting Digital Transformation

ASEAN aims to become a digital economy hub, with the digital economy projected to reach \$1 trillion by 2030 ⁽³⁾. To realise this goal, NTW plays a big role in providing access to its courses in digital skills, including AI, data analytics, and cybersecurity.

(3) Google, Temasek, and Bain & Company's e-Economy SEA Report

RM323 Million Training Value

Investment in L&D Across ASEAN

ASEAN countries are increasing their investment in L&D, with Malaysia providing RM323 million worth of training value under NTW 2024.

ASEAN's L&D strategy focuses on inclusivity, targeting women, youth, and rural populations. Lifelong learning is crucial for personal growth and professional success, especially in an era marked by rapid technological advancements and evolving job markets.

NTW, spearheaded by the Human Resources Ministry through HRD Corp, epitomises the commitment to lifelong learning by ensuring individuals remain competitive and adaptable and continuously enhance their skills and knowledge.

All training courses are designed to reach enthusiastic learners from all walks of life, including those in remote areas.

WHAT'S IN IT FOR YOU?

DRIVING PROGRESS THROUGH SKILLS DEVELOPMENT

“ ”

Malaysia must place greater focus on mastering knowledge and skills and cultivating inner strength and resilience as a strategy to face an increasingly challenging and uncertain world.

One thing that stood out...is that the world today, despite its political complexities, is focusing on the economy, the advancement of knowledge and culture, skills, proficiency, and artificial intelligence (AI).

YAB DATUK SERI ANWAR IBRAHIM
Prime Minister of Malaysia

“ ”

It is not possible for us to develop a world-class local skills training sector within the ecosystem of high-tech industries that have been established in Malaysia for over 50 years.

Skills enhancement will help the country achieve its goal of having a 35% skilled workforce by 2030, thus providing a more knowledgeable society.

YB STEVEN SIM CHEE KEONG
Minister of Human Resources, Malaysia
